Phone: +91-9508929098 Email: satyamkumar362005@gmail.com LinkedIn GitHub Portfolio

Professional Summary

Detail-oriented and passionate Web Developer skilled in the MERN stack, creating responsive full-stack web applications. Proficient in building RESTful APIs, user authentication with JWT, cloud deployments, and using Git for version control. Strong understanding of front-end frameworks (React.js, Tailwind CSS), backend architecture (Node.js, Express), and NoSQL databases (MongoDB). Actively solving problems on LeetCode (150+ DSA problems).

Education

Guru Jambheshwar University of Science and Technology, Hisar, Haryana

B.Tech in Computer Science and Engineering (AI & ML)

July 2023 – July 2027

Avg CGPA: 6.07

Inter Mathurasini Mahavidyalaya (BSEB)(10+2), Rajauli, Nawada, Bihar

Senior Secondary Education

2022

Percentage: 87.2%

Relevant Coursework

- Data Structure Algorithms
- Operating Systems
- OOP's (Java)
- Computer Network
- Artificial Intelligence
- DBMS

Projects

Ecommerce Website: E-cart | MERN Stack

Live Demo

- Developed a full-stack online shopping platform using MongoDB, Express.js, React, and Node.js.
- Integrated Razorpay for payments, JWT for authentication, Multer + Cloudinary for secure product uploads.
- Implemented CRUD operations, admin dashboard with role-based access, and RESTful API architecture.
- Deployed frontend on Vercel and backend on Render.
- **GitHub:** Code Link

GitHub Profile Detective | (React.js ,Axios,React Icons (FA) ,CSS3 / Tailwind ,GitHub REST API ,Vercel)

Live Demo

- A React.js web application that analyzes any GitHub user's profile using the GitHub REST API
- Fetches and displays detailed insights about a developer's public activity, repositories, and coding patterns
- Built with a clean, responsive UI for showcasing developer analytics in a visually appealing way
- **GitHub:** Code Link

WhatsApp Chat Analyzer | Python, Pandas, NumPy, Matplotlib, Seaborn, Streamlit

Live Demo

- Built a data analysis tool to extract and visualize insights from WhatsApp chat data
- Analyzed user activity, message trends, and emoji usage
- Creates a structured Pandas DataFrame with columns: Date, Time, Author, Message
- Bar charts for top words, emojis, and active users
- **GitHub:** Code Link

Technical Skills

Languages: JavaScript, Java, C, HTML5, CSS3, Python

Frontend: React.js, Tailwind CSS, Vite, Bootstrap, DOM Manipulation

Backend: Node.js, Express.js, REST APIs, JWT, Middleware

Databases: MongoDB, MySQL

Dev Tools: Git, GitHub, Postman, VS Code, Jupyter

Cloud Deployment: Vercel, Render, Cloudinary, Multer

Other: Responsive Design, Debugging, Problem Solving

Achievements

- Solved over 150+ DSA problems on LeetCode including arrays, recursion, strings, and linked lists, etc .
- Regular contributor to GitHub with clean, documented code in multiple repositories.
